Smarter AI, Stronger Future

OUR APPROACH

# Grounded & Guided Intelligence.

Intelligence that cannot be examined, questioned, or grounded is not intelligence.

1

## Real Data

Not synthetic or fabricated.  
Verified, from trusted sources.

2

## Context

Not just numbers -- causes,  
narrative, mechanisms.

3

## Transparency

The system knows what it does  
and admits what it doesn't.

4

## Restraint

No unnecessary prediction,  
no exaggerated insight.

**Guided: Decision support, not information overload.**

Right data · Right moment · Right depth · Humans decide.

STRATEGIC DECISION SUPPORT

# StrategyThrust

## Strategic analysis in 72 hours.

### 16 Report Types

Sector, company, master plan,  
competitive intelligence & more

### 4 Depth Levels

From 10-page brief to 80+  
page board-level report

### 17 Visualizations

Charts, matrices, roadmaps,  
KPI dashboards auto-generated

OUR SERVICES

# ATAOL AI Lab

## From strategy to execution.

Custom solutions, process automation, and digital transformation services.

1

### Custom Solutions

Tailored strategy and application development

2

### Process Automation

Automating repetitive business processes

3

### Mobile Apps

High-performance iOS and Android applications

4

### Web Platforms

Scalable, secure, modern web solutions

5

### Data Analytics

Raw data to meaningful insights and reports

6

### Digital Transformation

From strategy to execution, full digital journey

SECTOR EXPERTISE

# Proven experience across 15 sectors.

|                |                    |                         |
|----------------|--------------------|-------------------------|
| Manufacturing  | Healthcare         | Retail                  |
| Logistics      | Construction       | Energy & Infrastructure |
| Government     | HoReCa             | Banking & Finance       |
| Transportation | Media & Publishing | IT & Software           |
| FMCG           | Commerce           | Startup                 |

## Client Results

|                       |                   |                      |                      |
|-----------------------|-------------------|----------------------|----------------------|
| +40%                  | -30%              | +25%                 | 2000+                |
| Customer satisfaction | Operational costs | Logistics efficiency | Hours saved annually |

H. Sahin, Marketing Director

FMCG

COMPARISON

# ATAOL AI Techs vs. Traditional Approach

| CRITERIA              | ATAOL AI              | TRADITIONAL                |
|-----------------------|-----------------------|----------------------------|
| Processes             | Automated & scalable  | Manual & limited           |
| Delivery time         | Hours -- days         | Weeks - months             |
| Error rate            | Data-driven accuracy  | High error risk            |
| Scalability           | Unlimited             | Limited by team capacity   |
| Decision making       | Proactive insights    | Reactive, backward-looking |
| Cost                  | Budget-friendly       | High cost                  |
| Strategy + Operations | Under one roof        | Separate providers         |
| Training & competency | Integrated programs   | External training needed   |
| Sector experience     | 15+ sectors           | Narrow specialization      |
| Data sources          | WB + IMF + OECD live  | Manual research            |
| Reporting             | DOCX + PPTX automated | Manually prepared          |
| Mobile access         | iOS & Android, 24/7   | Limited or none            |
