SOUND FAMILIAR?

# 5 roadblocks to strategic reporting

1

## Consulting fees are prohibitive

A single sector report costs \$15K-\$60K.  
SMEs simply can't afford it.

2

## Weeks of waiting

A comprehensive report takes 4-8 weeks.  
Market opportunity passes before delivery.

3

## Data goes stale

By the time the report is ready, the data is old.  
GDP, inflation, market growth shift daily.

4

## Poor visuals and formatting

Excel tables and plain text. No board-ready presentations, no executive-grade output.

5

## Starting from scratch every time

Every report is written from zero.  
No institutional memory, no template leverage.

"Pay the consultant or struggle in Excel... was there no other way?"

PLATFORM

# 16 report types.

## 4 depth levels.

Sector analysis, company assessment, strategic plans, and more.

### Sector Report

Comprehensive industry analysis, market trends, competitive landscape

### Company Analysis

SWOT, financials, strategic positioning

### Strategic Master Plan

Vision, goals, initiatives, KPIs, and governance

### Competitive Intelligence

Competitor profiling, war-room scenarios, benchmarking

## Depth Levels

1

### Short Brief

10-15 pages

3,000+ words

2

### Standard Report

25-40 pages

8,000+ words

3

### Executive Deep Dive

50-80 pages

15,000+ words

4

### Board-Level Report

80+ pages

Full scope

FUNCTIONAL REPORTS

# 12 functional report types.

Domain-specific strategic plans for every department.

|                         |                          |
|-------------------------|--------------------------|
| 1Sales Strategy         | 2Pricing Strategy        |
| 3HR & Organization      | 4Marketing Strategy      |
| 5Operations Improvement | 6Production Efficiency   |
| 7Logistics Optimization | 8Supply Chain Strategy   |
| 9Accounting & Reporting | 10Financial Modeling     |
| 11Sustainability / ESG  | 12Digital Transformation |

Each report includes: current state analysis, KPI framework, gap analysis, prioritized recommendations, and 30-60-90 day roadmap.

DATA & RESEARCH ENGINE

# Powered by the world's most trusted data sources.

Each report section runs through its own research + generation pipeline.

### Senior Consultant Lens

Every output written from a 25+ year senior partner's perspective

### Live Market Data

Verified data from authoritative sources with academic-grade citations

### 3-Source Macro Data

World Bank, IMF, and OECD -- 16 economic indicators live

### Anti-Generic Content

Cliches banned, quantified language enforced, citations required

### Multipart Pipeline

Each section gets its own research + generation pass. Not single-shot.

### Consulting Frameworks

Porter, SWOT, PESTEL, BCG, Balanced Scorecard (4 perspectives)

## 16 Economic Indicators (Live Data)

|                       |                     |                      |                |
|-----------------------|---------------------|----------------------|----------------|
| GDP Growth            | GDP per Capita      | Inflation            | Unemployment   |
| Trade Balance         | FDI Inflows         | Interest Rate        | Population     |
| Industrial Production | Trade Volume        | Internet Penetration | CO2 Emissions  |
| Renewable Energy      | Labor Participation | Consumer Spending    | Energy Imports |

OUTPUT QUALITY

# Consulting-firm grade deliverables.

## DOCX - Word Report

- Branded cover page + CONFIDENTIAL header
- Navy blue theme + zebra-striped tables
- Color-coded risk matrices
- Source-cited, quantified content
- Times New Roman, corporate formatting

## PPTX - Presentation

- Dark glass premium theme (16:9 widescreen)
- Professionally designed 12 slide layout types
- Unsplash stock photo integration
- Cover, agenda, divider, content, closing
- KPI grid, chart, table, comparison slides

English & Turkish · Full bilingual support

COMPARISON

# StrategyThrust vs.

# Traditional Consulting

| CRITERIA              | STRATEGYTHRUST           | TRADITIONAL              |
|-----------------------|--------------------------|--------------------------|
| Cost                  | Subscription, affordable | \$15K-\$60K / report     |
| Delivery time         | Minutes                  | 4-8 weeks                |
| Data freshness        | Live (API)               | Snapshot at report time  |
| Report type count     | 16 types, ready          | Project-specific         |
| Depth selection       | 4 levels (10-80+ pg)     | Depends on consultant    |
| Visualizations        | 17 types, automatic      | Manually created         |
| Output format         | DOCX + PPTX              | PDF or Word              |
| Language support      | English + Turkish        | Single language          |
| Consulting frameworks | SWOT, Porter, PESTEL...  | Depends on consultant    |
| Macro data source     | WB + IMF + OECD          | Manual research          |
| Reusability           | Regenerate instantly     | Start from scratch       |
| Scalability           | Unlimited                | Limited by team capacity |

CONSULTING FRAMEWORKS

# Proven strategic frameworks, built in.

## Porter's Five Forces

Industry attractiveness and competitive intensity analysis

Sector Report, Competitive Intel
